WORK EXPERIENCE

Freelance & 5Crowd   **Nov. 2017 – Present**
Front End Engineer   *Remote*
- Developing a Fullstack Pet Hotel Saas application.
  - React frontend with Material-UI framework and react-query for data fetching & caching.
  - Form-heavy application, created custom Formik/Material-UI binding components to manage form UI, state, validation & error handling across the app.
  - Utilising AWS services for authentication, storage, CDN, hosting, email and a serverless image handler for on the fly image manipulation & optimisation.
  - Node/Express/Prisma backend with PostgreSQL database.
  - Monorepo Typescript architecture sharing validation & types across the stack.
- Designing and developing websites using HTML, CSS, Javascript, PHP & frontend frameworks.
- Developing animated banner ads for display marketing campaigns.

MediaMonks   **Oct. 2015 – Nov. 2017**
Front End Developer (Rich Media)   *Amsterdam, Singapore, Los Angeles*
- Developed Rich Media campaigns for Netflix, Amazon, AirBnB, and other well known brands.
- Used HTML, SASS, clean JavaScript code and asset optimisation to meet strict file size limits.
- Cooperated with all project stakeholders in a cross functional team. Pushing the boundaries of banner ad animation and user experience while maintaining IAB standards compliance.
- Continuous exploration of development techniques in the production process to help clients meet conversion goals.
  Key Achievements:
  - Collaborated with the Netflix Ad Personalization team, assisting them in the development of their ad serving infrastructure. Enabling dynamic creatives, alterable at serve time.
  - Sole developer for LEGO APAC project. Relocation to Singapore for 3 months, enabling local development for client interaction and fast turnaround.

Content Surgeons   **Feb. 2013 – Oct. 2015**
Web Developer   *Dublin, Ireland*
- Designed & developed websites for companies and individuals in the UK and Ireland.
- Part of a multidisciplinary team, worked closely with clients to establish an online presence and strategies to grow their business.
- Wordpress CMS integration & custom theme development.

EDUCATION

Technological University Dublin   **October, 2015**
BSc Computer Science   *Dublin, Ireland*
